

# Opto Diode Corp Cybersecurity Compliance Declaration

**Date:** March 10, 2025

**Opto Diode Corp** formally declares its full compliance with industry-leading Cybersecurity standards. As a prominent manufacturer of optoelectronic components, we understand the critical importance of safeguarding sensitive information and maintaining the highest standards of cybersecurity.

## **Cybersecurity Compliance Program:**

**Opto Diode Corp** has implemented a comprehensive Cybersecurity compliance program that includes:

**Internal Controls:** Robust internal controls are in place to secure our operations, encompassing manufacturing, sales, and distribution, protecting against cyber threats.

**Risk Management:** We continuously assess and manage cybersecurity risks, implementing mitigation strategies to address potential vulnerabilities.

**Employee Training:** Regular cybersecurity training is provided to all employees, emphasizing best practices in handling, storing, and sharing sensitive information.

**Data Protection:** We employ advanced encryption and data protection measures to secure both customer and company data from unauthorized access or breaches.

**Incident Response:** A well-defined incident response plan is in place to quickly detect, respond to, and recover from cybersecurity incidents.

**Audits and Assessments:** Regular internal audits and assessments ensure our ongoing adherence to cybersecurity regulations and standards.

## **Cybersecurity Compliance Products:**

Opto Diode Corp produces a range of products that adhere to cybersecurity standards, including:

- High-performance photodiodes
- Silicon photodiodes

## Opto Diode Corp Cybersecurity Compliance Declaration

- Detectors for various wavelengths (UV, visible, near IR)
- Multi-element and array detectors

We carefully review cybersecurity regulations and best practices to ensure the highest level of protection for our products and technology.

### **Commitment to Compliance:**

Opto Diode Corp is dedicated to maintaining full compliance with cybersecurity standards. We are committed to preventing unauthorized access, breaches, or any other cyber threats to our products and technology. We will continue to invest in our compliance program and provide ongoing training to our employees to ensure that we meet the highest standards of cybersecurity.

Sincerely,

Opto Diode Corp
